## 4th Tomsk International Forum “Transformation of Education”

**November 13–15, 2025**

### Forum Focus 2025

The IV Tomsk International Forum is dedicated to a central challenge in the renewal of higher education: ensuring educational quality in the context of shaping the "future person". This concept entails an individual capable of productive action within evolving industries, breakthrough technological fields, and the complex realities of the modern world.

→ 1

## KEY FORUM THEMES AND OBJECTIVES

The Forum program is designed to facilitate expert discussion on the following key areas:

- Pilot Program Review: A critical assessment of the content and outcomes from the experimental activities of universities participating in the Pilot Project for restructuring levels of professional education.
- Analyzing National Potential: An evaluation of the potential inherent in Russian university practices for transitioning to a new model of higher education.
- University-Industry Collaboration for Technological Leadership: A presentation of best practices in university-industry partnerships, with a special focus on the "New Materials and Chemistry" technological leadership initiative.
- Engagement with the Financial Sector: Discussions on the experience of university collaboration with the Central Bank of the Russian Federation and other financial industry organizations.
- Redefining Quality of Educational Outcomes: Expanding the framework for assessing student and graduate outcomes by introducing a new quality criterion: the dynamics of professionalization and career building.

## THIS CRITERION REFLECTS:

- ❁ A balance of practical and fundamental training;
- ❁ The development of research and technological competencies;
- ❁ The formation of value systems;
- ❁ The readiness of young people for self-realization and self-organization.

## FEATURED EVENTS

The Forum will feature several dedicated sessions, including:

- ❁ Final Stage of the All-Russian Competition on Education Quality: "Best Model of Internal Quality Assurance Systems within the University's Quality Framework"
- ❁ Project Session by the Center for Expert, Analytical, and Methodological Support: "Higher Education Quality: New Regulatory Frameworks," hosted by the FGANU "Sotsiotsentr"
- ❁ Session of the Regional Scientific Center of the Russian Academy of Education (RAC) in the Siberian Federal District: "Promising Directions for Fundamental Research in Education," co-organized by TSU and the HSE Institute of Education
- ❁ Roundtable (English Language): "How Research Transforms Education: Evidence, Practice, and Decision-Making," with representatives from BRICS countries
- ❁ Open Discussion Platform: "TSU Laboratory School" project. Session of the RAC Regional Scientific Center in the Siberian Federal District: "Contemporary Challenges in Teacher Education"
- ❁ Student Program A dedicated "School for Young Education Researchers" will be held for students, culminating in a conference and a competition for best research presentations

## WE INVITE THE FOLLOWING PARTICIPANTS TO JOIN THE FORUM:

- ❁ University leaders and administrators committed to advancing educational practices and addressing current challenges in higher education quality.
- ❁ Scholars and research teams in the humanities, social sciences, and neurosciences, whose findings have the potential to inform and transform education.

- ❁ Representatives of the labor market and key regional development stakeholders. Researchers in pedagogical sciences and teacher education.
- ❁ Educational practitioners and innovators, including faculty, instructional designers, and methodologists.

**Format:** The Forum will be held in a hybrid format.

**Registration Note:** For listeners and presenters registering after October 26, 2025, only online participation will be available. The detailed program is currently under development.
